I have been in dozens of other MLM opportunities and this is the one that I have found that I can call Home. Wor(l)d Global's CEO's and Designers are EXPERTS in the Products and honestly right at this moment are superior to any other products out there. These individuals also have huge hearts and they have proven to me they want everyone to win. Our leaders/mentors are exceptional, whom reach down into our organization to help us. The training is first class and the personal growth I have experienced has been extremely rewarding for me and my family. The Products are superior compared to other products out there right now AND the ability to add Apps to work with the HELO opens even more doors as to what our wrist band can do. I love that flexibility. The compensation plan can't be beat, the fact that now we can Retail (just customers), Member (to make an income), APP (for programmers to make more income AND your sponsor as well), plus all the EXTRAS we receive by just helping 6 people. It's incredible! The best thing about this is that it doesn't matter if you have a degree or not, how old or young, how fat or skinny, everyone has a chance to have complete financial security. I FEEL and my Team mates Feel BLESSED and HONORED to be part of such a revolutionary Company. I am a Wor(l)d Changer, helping one family at a time!

**I've been in direct sales for 14 years** and created a full time career over the past decade. This is the FIRST time I've seen a company with the potential for \$1 Billion /month in revenue over the next 3-5 years due to market conditions, trends and product positioning. At the very least every person in this profession should be involved at some level before (even just as a customer) before massive momentum begins!

I was a laser focused, passionate and vocal leader in my company with so many offers from several MLM companies to transfer but never did until I heard Jeremy Roma speak during the soft launch of WGN in Manila last March 19, 2017 when I unknowingly **started to dream again in just 45 minutes.**

I have not taken long to decide to make an abrupt turn and give myself a fresh beginning with substantially bigger chances to beat the odds.

The more I immerse and discover the business, the people and forming culture the more I fall in love not only with WGN but with real network marketing.

This is going to be a FUNtastic journey!

I have been in networking for over 25 years but always with skincare based companies. So never been interested in technology until my husband had a health challenge. We joined World and truly haven't looked back at what has been we are just loving the culture the company and the integrity of all involved. Inspiring beyond belief. We know we have the right vehicle and the timing is perfect and are setting our sail to full steam ahead. Our founder Fabio Galdi is the perfect Captain of the ship. The guidance and support of our team Ucan2 is just out of this Wor(l)d.

I stumbled upon this product at a time in my life that was exactly what I was looking for in support of my 80 yr old father. After seeing the impressive features I knew without a doubt he would wear one whether he wanted to or not and price didn't matter at that point. Anyone can afford this at \$199 and the larger packs for families just made perfect sense for me. I can now remote monitor my dads bio parameters and know how well he really slept and how long. I can receive a notice or alert if any if his bio ranges fall out of a safe measurement for his heart rate, breathe rate, blood pressure, EKG rhythm, and just knowing if his mood and fatigue level is high, low, anxious or whatever it reads, I now know what's going on without having to smother, hover and disturb him on an hourly basis. This device can be preset to read and report it for me. Plus the panic button is very helpful should he fall and require immediate assistance, I know his GPS location and can respond or react immediately for assistance as well as others. You can't put a price on peace of mind. Plus I love the referral program as everyone deserves to know what we know. Especially with the 4Q features to come in blood glucose without finger pricking, blood alcohol, a mosquito repellent to name a few, deserves to be shared. National media attention for very good reason. Yes I'm very happy to share with others.

When you're talking about the Wor(l)d Global Network, your talking about the best business opportunity of our time! Business is all about Right Product, Right Timing, but Wor(l)d has it ALL! ( a proven duplicable system) and Right timing! This is the best business I am running with everything I have because I know the value of the products and timing! As a Domestic Violence Overcomer the safety feature on the Helo LX and the BioZen that fights electro smog are my hot buttons and I am creating a team to confront domestic violence globally so I am very excited about the Helo LX. will help to protect women and children globally!

As an entrepreneur I have spent a lifetime training those who want to own their own business this opportunity blesses everyone from the customer that gains a referral fee, to the the lucrative comp plan. World is where it is at!

Forerunners of change an opportunity where anyone with a dream can win.

The perfect storm where home based business, healthcare, and network marketing revolutionize the industry!

So blessed to have found this wonderful company, product, and opportunity. If you want to monitor your health, or the health and safety of your loved ones, the Helo LX is the device that can make a difference. The Helo LX is truly a game changer in the health, technology and home-based business industries. This company enables us to help others by positively impacting not only their health but also their lifestyle. With the addition of the App Store and the simplicity of sharing this device through a proven system, the future is bright. It is so exciting to be a part of this movement of Wor(l)d Changers!

World Global Network Helo health monitoring device is an advanced innovative technology to improve overall quality of your life. The next great tech revolution is here for mobile health monitoring. Tracking the status of our health to enhance quality of life for everyone.

#### HELO Smartband

A Real-Time health monitoring and health-enhancer now within reach. Helo is a wristband that can be worn 24/7. It real-time monitors your vitals and provides you with data that can be used to inform your health & lifestyle choices, which in turn, leads to better health and physical condition.

Unlike similar wearables, Helo is not limited to monitoring and reporting vital data. It has active sensors, minerals, and stones that directly influence your body as they detect emotions, fatigue, sleep quality, exercise, blood pressure, heart rate, and ECG.

**FANTASTIC!**

**There is no other product on the market to match it!**

[Rejoice Boney](#) 30-06-2017 14:25:54

World Global Network and what they are bringing to the marketplace is phenomenal. This technology is changing healthcare as we know and the fact that health professionals can now make decision with a vital input of patient's personal generated health data and fostering patient involvement in their own healthcare is just awesome. Imagine your life saved just because something is going on with your heart that your ECG reading shows abnormal and because of that you go to your doctor just at the right time. How many times have we heard a doctor say "if only this patient had come in a little earlier, they could have been saved" or you walk into your doctor's office and you hear them say "why you waited so long". I am grateful for World Global Network and their revolutionary product the Helo.

**Everyone in my household now using the Helo which we got.** My husband who is a commercial driver is highly impressed about peace of mind the Helo has afforded him, now he can monitor his blood pressure and sleep and can't wait to start monitoring his blood sugar. One of the challenges of over the road drivers he says is nutrition and health.

Blessed to be introduced to this company early mid 2016... so early all we had was the amazing 2-minute video, the ONLY item we still market with today. The ONLY video anyone needs to view to see what an outstanding game-changing technological wonder we have in the Helo and Helo LX. Knowing that any and all updates happen remotely through the app and the ONLY wearable device that has it's own App Store! The functionality possibilities are only limited to what the mind can conceive! TODAY, the company has grown beyond anything any of us imagined. As caretaker of an aging parent, the Helo has given me the freedom and piece of mind to leave the house! I'm especially excited for the updates coming later this year - **we'll be first to market once again!** If you haven't looked at us... WHAT ARE YOU WAITING FOR?

In my career within the home Based Businesses, I have been fortunate to have been part of a couple of previous companies that I did well in.

Here with Wor(l)d it's a whole different story. The vision of the CEO, having the desire to be the category creator and the trendsetter within the category provides the masses with what I believe is and proving to be the opportunity of the industry and of our life time.

Impacting the masses through the most advanced wearable technology allowing them to take responsibility of improving their wellness and attaching the No1 opportunity to generate wealth, in time frames that have never been experienced before, is why we are not just another company, we are a movement !

I am full of gratitude and ready for is ahead as Wor(l)d continues to not only break records in the industry but to change lives around the globe.

This company gave me the platform to grow into the business woman I was meant to be. With the simple systems and relevant product, your team members don't have to be social media superstars or a world class speakers. They can be themselves, learn the basic skills of network marketing and soar! I have teams all over the world too many people to count, that are stepping into leadership roles. **I started network marketing in 2010 and I never have seen the ability to help other people find their greatness like I am seeing now.** I have a MA in Health Care Administration and I worked in public health for 10 years. The white collar professionals that would never consider joining me before, are coming with excitement now.

Thank you, Fabio Galdi, for this opportunity!

**I love this company!** I've never worked with a network marketing or traditional company that cares as much about its people and customers as much as World Global Network! The leadership and mentorship is like no other company. World Global Network has the best people around from distributors all the way up to the corporate staff including CEO Fabio Galdi who are in this business to help as many people as possible. That's what makes this company special, different and a leader.

The products are life changing as is the opportunity. This opportunity allows us as distributors to help people and make such a positive impact on friends, family and literally around the world while taking advantage of such a generous compensation plan with other amazing bonuses.

World Global Network is definitely changing the world and making it a better place for everyone!

Wor(l)d Global and HELO LX are a movement, clearly a World Changer. The generosity of the comp plan, the fairness of it, along with the vision that Fabio has allowed us to be a part of, and the ability to get futuristic technology in front of billions, with so little effort, is an opportunity for every average person, household and family. What this device can do for everyone is truly life changing.

Customer care is finally up and running, giving people choices, and solutions, with somewhere to phone or write for assistance, and this is moving us only more forward with the opportunity overall. It shows that we can adapt to the needs of the distributors.

A tech support line, or tech division of customer care, such as a live chat function, would do wonders addressing the bugs people encounter with a newly arrived device, taking the pressure off focused business builders who have to troubleshoot for their newly enrolled and their tech issues. I hope we invest into that in the future, as it will make many more new customers and entrepreneurs able to remain focused solely on getting this gift in front of as many potential visionaries as possible, as we become number ONE in wristband monitoring technology and more.

We are Wor(l)d Changers and this is only the beginning of the excitement to come. Thank you!

**I am blessed to be a Wor(l)d Changer.** From the product which is one of a kind, the company that is amazing, the compensation plan that with hard work has success written all over it, to our fabulous leaders that are always there for us - who wouldn't love this truly home based business. Wor(l)d Global Network is the King of the Castle and I'm proud to be part of this Royal family ♥

**World Global Network has impressed me** with it's understanding of what not only today's Network Marketing distributors need to succeed but more importantly, what our worldwide community of customers are asking for even before they truly understand they are looking for it.

With our Helo LX we have created a category of Life Sensing Technology, far more powerful than just merely tracking our fitness. It truly is helping us become aware and advocate for our own health. Just as it is said, the New healthcare is Selfcare.

I **HIGHLY recommend** anyone looking to monitor not only their own health, but the health of loved one's to take a **SERIOUS** look at the Helo.

Those that are looking for the next best business opportunity, look no further - this is it! We have Timing, Relevance in today's market, leadership and the best compensation plan out (in my humble opinion).

Partnering with Wor(l)dgn earlier this year was the best decision I have made in business.

I just love Wor(l)gn and all that it offers....the company, products, culture, compensation plan, leadership...

Looking forward to many more years as a Wor(l)dgn distributor.

Danny Licciardi 21-06-2017 13:36:23

1. Product - Innovative, works on 100% of the people who use it and ZERO competition in the industry.
2. Comp plan- simple to understand and simple to build & very lucrative.
3. System- Simple, duplicate, and anyone can do it.
4. Attracting Leadership - Top leaders from other companies are partnering with us.
5. Momentum- It's like a vacuum, get involved, put in the efforts, be consistent and you will succeed.

"People who never won before are winning and people who have won before are winning bigger."
